

```

void permutation(string s,string ans)
{
    if(s.length()== 0)
    {
        cout<<ans<<endl;
        return ;
    }
    for(int i=0;i<s.length();i++)
    {
        char ch = s[i];
        string ros = s.substr(0,i) + s.substr(i+1);
        permutation(ros,ans+ch);
    }
}

int main(){
    permutation("ABC","");
    return 0;
}

```
